KEY ECONOMIC INDICATORS AT RECORD POSITIVE LEVELS IN LICKING COUNTY

June figures released by Ohio’s Bureau of Labor Market Information contain good news for Licking County businesses, residents, and investors. BOTH total Civilian Labor Force AND Total Employment are at historically high levels. We’ll let the data speak, primarily, for itself (see charts).

“These figures, more than many other sets of data, speak directly to the strength of our local economy,” noted Dan Evers, GROW Licking County Economic Development Director. “They reflect both the strength of local employers (Total Employment) as well as the confidence of job-seekers. That both figures are at peak levels is indicative of the growth and opportunity available for employers in Licking County.”
